2020 will have been a very special year due to the unprecedented sanitary conditions that we have all encountered. As representatives of the world motorbike sport, we had to put forward our values such as fighting spirit, mutual aid and team spirit more than ever before in order to meet our initial objectives.

This tenacity, guided by the desire to always surprise you more, has paid off and we are proud to show a positive result in many ways:

- The strength of our international Group has made it possible to finalize several partnerships, including the opening of a new subsidiary in Japan, in addition to the 70 countries in which we are already present.

- This new Spring/Summer 2021 collection is also a fine example of our ability to reinvent ourselves: the Racing and Adventure sections have undergone a real facelift, thanks to technical, innovative and high-performance products (see page 18 and page 76).

- Even if the competition sports season was also disrupted, the Ixon riders were able to overcome incredible challenges and offered us 3 victories in MotoGP (B.Binder & M.Oliveira), 1 in Moto2 (R.Gardner), and many other titles and podiums.

We want to say a big THANK YOU: it is thanks to you that we have grown so much, and it is for you that we want to do even more.

Performance and innovation must remain at the heart of our development, let's improve our know-how again and again, this is our "raison d'être!" - reason for being.

#RACEYOURWAY

2020

AN EXCEPTIONAL YEAR!

3 VICTORIES IN MOTOGP™

+ 1 VICTORY IN MOTO2

11 PODIUMS

2 TITLES IN BSB

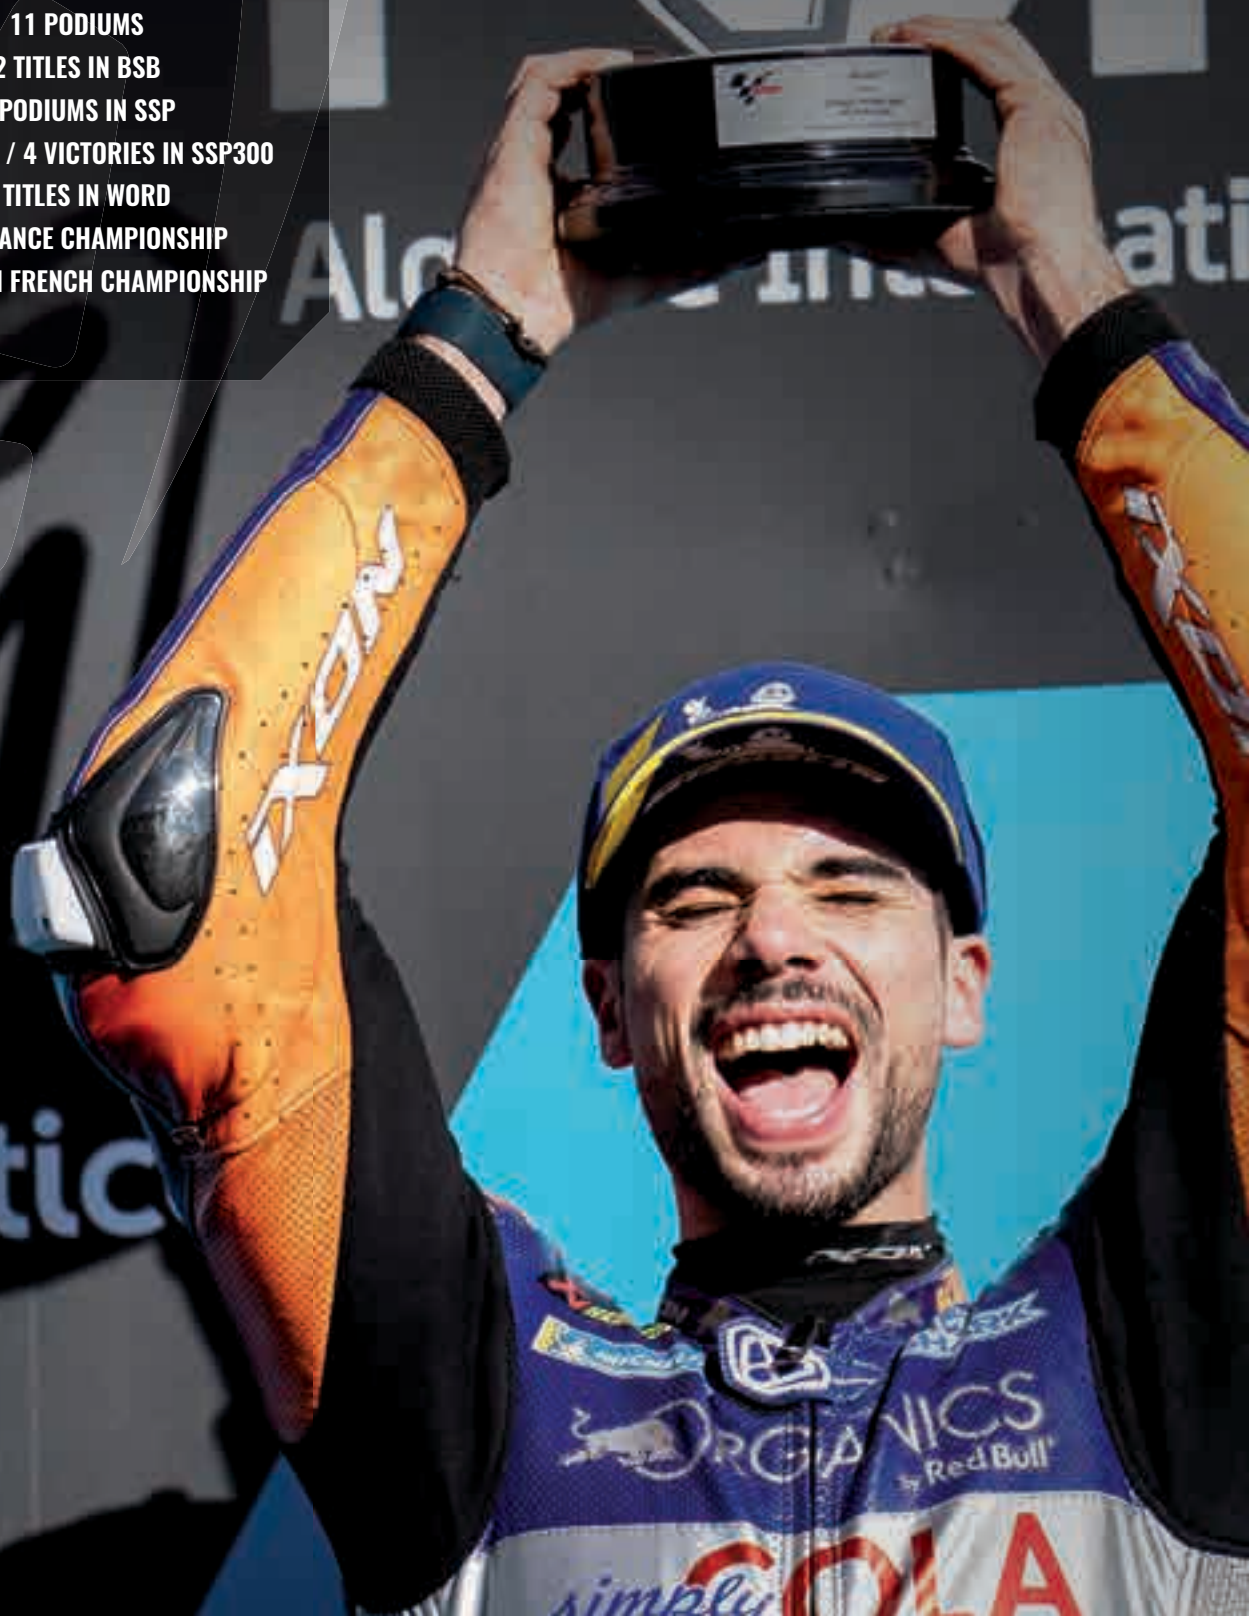

8 PODIUMS IN SSP

7 PODIUMS / 4 VICTORIES IN SSP300

2 TITLES IN WORD

ENDURANCE CHAMPIONSHIP

6 TITLES IN FRENCH CHAMPIONSHIP

Passion animates us, and it is always with such pride and joy that we look upon our made in France suits on the highest step of the podiums.

Each victory gives us emotion and is a driving force for high standards that invite us to achieve even more excellence. Let's not forget our raison d'être.

**THANK YOU AND BRAVO
TO ALL OUR RIDERS!**

TECHNOLOGY TO ENHANCED COMFORT

AND PROVIDE A LIMITLESS EVASION

XDRY

	MODEL	XDRY	SCHMERBER IMPERMEABILITY LEVEL	MVTR BREATHABILITY LEVEL
XDRY $\begin{smallmatrix} 26 \\ 20 \end{smallmatrix}$	RAGNAR	3 LAYERS	26 000	20 000
XDRY $\begin{smallmatrix} 20 \\ 10 \end{smallmatrix}$	EDDAS	2 LAYERS	20 000	10 000

DEVELOPED BY IXON

**Water column test
and Schmerber measurements**

XDRY $\begin{matrix} 26 \\ 20 \\ 20 \end{matrix}$

XDRY $\begin{matrix} 20 \\ 20 \\ 10 \end{matrix}$

WATERPROOF AND HIGHLY BREATHABLE

X-DRY IS A HIGH
PERFORMANCE MEMBRANE

Xdry is a high-performance laminated membrane construction developed by Ixon; it contains microscopic pores, invisible to the naked eye, which are too small to let water in but big enough let moisture vapor evacuate. It is durably waterproof, very breathable, and available in 3 layers or 2 layers.

As an indication, rain rarely exceeds 2000 Schmerber and it is considered that on a motorbike riding in the rain at 130 km/h (80mph), the water pressure can reach about 8000 Schmerber.

IX AIRBAG U03

UNIVERSAL AIRBAG
WEARABLE UNDER ANY JACKET*
WHATEVER THE BRAND

*Jackets certified for motorcycle
or scooter use and meeting sizing
requirements (measurements procedure
detailed in the use information booklet).

More information (p.262)

in partnership with

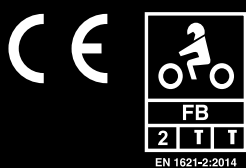

WHEN ERGONOMICS MEET PERFORMANCE

IX PRO BFB-2

BACK PROTECTOR
CE EN-1621-2 : 2014 LEVEL 2

This protection manages the feat of being light and flexible while offering a very high energy absorption capacity (<9kn), for remarkable performance.

In lightweight memory foam, with a few perforations that contribute to ventilation, it is also very discreet, thanks to its ergonomic design and beveled edges.

More information (p.263)

GENERATION ALPHA

iX-PROFLEX SEKA-1

FLEXIBLE, VERSATILE, AND HI-VENTILATED

SHOULDER-ELBOW-KNEE PROTECTOR
CE EN-1621-1 : 2012 LEVEL 1

The IX-PROFLEX range has been designed with specific pattern of bevelled hexagons which creates an extremely soft and ventilated protection. The functional and complex pattern combined with the most efficient material made it possible for us to offer you an injected and ergonomic protection.

More information (p.264)

- ZONE 1
- ZONE 2
- ZONE 3

› A PROTECTION ACCORDING TO ZONES, MORE LOGICAL

While zone 1 represents the areas where the CE protections are located on elbow, shoulder, knee and hip, zone 2 recovers the outside of the legs, the top and back of the arms, the back as well as the buttocks and sides. Less exposed to abrasion, the front of the chest, the inside of the legs and the inside of the sleeves are in zone 3.

EN 17092 CERTIFICATION

A NEW STANDARD APPLIES TODAY FOR THE CERTIFICATION OF MOTORBIKE CLOTHING.

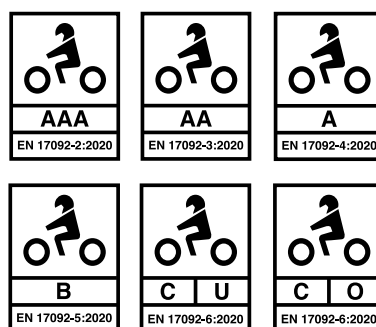

THE EN17092 STANDARD REPLACES BOTH THE 13595 STANDARD AND PROTOCOLS AND THUS ALLOWS TO CERTIFY ALL MOTORBIKE CLOTHING, WHETHER IT IS DESIGNED FOR PROFESSIONAL OR LEISURE USE. IT INTEGRATES LEVELS OF CERTIFICATION ADAPTED TO ALL DIFFERENT MOTORBIKE PRACTICES.

› 5 LEVELS FOR AN ADAPTED PROTECTION :

We don't need the same protection whether we're driving on the track, on the road or in the city. First because we don't slide the same at 30 km/h than at 150 km/h.

The new standard therefore consists of several levels:

- **AAA** : for jackets, trousers or suits that have to support full speed sliding on the track.
- **Levels AA and A** offer to everyone the possibility to find a product that offers the optimum balance between the need for protection and the obvious need for comfort and flexibility according to the intended use.
- **Level B** products meet the same minimum protection requirements as level A products, but do not include CE protection for elbows, shoulders, knees and hips.
- **C** : designed only to hold one or more CE elbow, shoulder, knee, hip and/or back protectors in place, on or under clothing.

› WHAT PROTECTIONS ARE MANDATORY DEPENDING ON THE LEVEL OF CERTIFICATION?

EN 17092 LEVELS	COMPULSORY CERTIFIED PROTECTORS
AAA	SHOULDERS, ELBOWS KNEES, HIPS
AA	SHOULDERS, ELBOWS KNEES, HIPS
A	SHOULDERS, ELBOWS KNEES
B	NONE
C	NONE

› A REVISED ABRASION TEST METHOD :

The tests are carried out on a concrete slab with a test protocol called DARMSTADT. This method is much closer to the real conditions in the event of a motorcyclist's fall (the tests were previously carried out by rubbing the fabric with an abrasive material).

VENDETTA EVO

INSPIRED FROM MOTOGP™

**NEW
PRODUCT**

Make the switch to performance mode!

With a unique and dynamic design, optimised for ventilation and freedom of movement, this suit will ensure you a powerful and comfortable driving experience. The Vendetta Evo model, instantly recognisable by its ultra-preformed lines, comes equipped with laminated flexible and resistant materials, in areas likely to experience abrasion – offering you an unparalleled level of innovation and performance. Embodying Ixon's daring and renewed success, the Vendetta Evo suit owes its avant-garde design to MotoGP™. You're guaranteed to discover new driving sensations and enjoy a remarkable experience on the track.

1059

1125

VENDETTA EVO.

102 20 1 024

Designed in France

SAFETY

- Securized stitching • Thick and supple cow leather • High abrasion resistance synthetic fabric reinforcements on exposed areas : forearms and knees • Compatible with **IX-AIRBAG U03** vest • Reinforcements with material complexing on areas exposed in case of fall (double layer of leather, 3D AIR SPACER mesh) for safety and better airflow (chest, biceps, triceps, shoulders, thighs) • 2-layers of leather on buttocks and foam reinforcements on coccyx area • Localized micro-perforations to avoid weakening the leather on stitching areas • Thumb loop straps (which prevent the sleeve from coming up in case of a fall)

AIRFLOW

- Micro perforated leather • Air extractors on hump and back • Removable mesh lining • Multi-material reinforcement (double layer of leather and 3D AIR-SPACER mesh) for safety and better air flow (chest, Biceps, Triceps, Shoulder, Thighs) • Pockets for protectors in 3D AIR-SPACER mesh

SPECS

- MotoGP™ inspired dual-density sleek shells on shoulders and knees • Flex leather on sides, on back of armholes and on bottom back • Stretch inside sleeves and on all the leg length, from crotch to calves grip inside knees • Aerodynamic hump equipped to welcome a water bladder • Removable and adjustable elbow sliders • Knee sliders included, adjustable and replaceable (ref. Slider race 2.0) • 2 internal pockets

102 20 1 011

This racing suit is designed to provide an optimal experience and performance on the circuit, in complete safety: cut very close to the body and ultra-preformed, the suit is nonetheless made incredibly comfortable thanks to cleverly placed flex and stretch, while the shoulder protectors and the aerodynamic hump on the back are both streamlined and integrated. Compatible with our Ix-Airbag UO3 vest, you'll find it on circuits across France, and further afield!

1012

1028

1016

SPECS

• Racing collar with neoprene back and high neckroll • Stretch reinforced with aramid fibers • Securized stitching • Flex leather on back of armholes, bottom back and over the knee • External integrated sleek shells on shoulders • Sliders on elbows • Aerodynamic hump, empty and perforated with space and passage for a water bag • Zipped cuffs with strap • Zipped calves • Knee sliders included, adjustable and replaceable (ref. Slider race 2.0)

JACKAL

LATEST GENERATION RACING SUIT

NEW
PRODUCT

An undeniably sporty design and a unique experience of comfort!

Cutting edge and equipped with advanced materials, the Jackal offers you a new vision of performance. Inspired by the innovations that have forged Ixon's competitive history, this piece forms part of a new generation of suits – with athletic and modern lines. Nothing is left to chance: profiled rubber on the shoulders, ventilated aerodynamic hump, knee sliders, and a selection of optional accessories. Dedicated to your driving experience, the Jackal combines comfort, technology and robustness, allowing you to ride in complete safety. Whether you ride for pleasure or for performance, it's guaranteed to keep all its promises.

RAGNAR

A design tailored for the most beautiful of adventures

Spearheading the new generation of Ixon Adventure products, the Ragnar set leaves nothing to chance in terms of both safety and technology. With a muscular design and reinforced Adventure character, this 3-in-1, ultra-efficient set offers you the choice of riding either hyper-ventilated or totally protected against the most extreme conditions. Waterproof and breathable, Ragnar is equipped with an X-Dry 26/20 insert (developed by Ixon) which largely measures up to some of the most popular membranes on the market. Discover the most radical of Ixon Adventure products!

Designed in France

LET'S REVISIT THE **ADVENTURE** STYLE

- Reflective on back and on bottom leg • Ripstop material (resistant to tearing and ripping) • 1200D reinforcements on shoulders, elbows, and knees • Saddle area reinforcement • Convertible 3 in 1 suit • Oversized zipped ventilations: on jacket: front, back, and sleeves + central 3D mesh retractable stripe on front fastening – on pants: thighs
- Removable waterproof and breathable X-dry inserts (26000 Schmerber/20000 MVTR) • Removable thermal linings • Pockets for protectors in 3D mesh for a better airflow (associated with ventilated Ix Proflex protectors) • Foamed collar with 3D mesh, neoprene high neckroll and chin pad • Adjustable tightening at collar + anti-flap hook
- Stretch inside sleeves, on back of armholes and on sides, at crotch and on sides from knee to ankle • Flex panel on back of waist for ease • Semi-autolock zippers (anti-flap)

HIGH-PERFORMANCE LAMINATED MEMBRANE THAT COMBINES A STRONG RESISTANCE TO WATER PENETRATION AND THE ABILITY TO EVACUATE EFFICIENTLY BODY MOIST

EDDAS

NEW
PRODUCT

Designed to stay the distance

A real gem of comfort and technology, the EDDAS set turns every one of your trips into a special moment. Developed, designed and created by and for adventurers, this model meets all the needs of even the most extreme road trips. Waterproofing and breathability are ensured in order to face up to the harshest of climates, thanks to the X-Dry 20/10 insert (developed by Ixon): guaranteed to keep you dry whatever the conditions, as well as offering thermal protection with some of the warmest removable inserts in the range.

KASSIUS

SPECIALISED AND COMFORTABLE

NEW
PRODUCT

Lightweight, ultra-waterproof and innovative in its design, the Kassius is a new example of technology designed to ensure comfort and performance. It is CE Level-2 certified, thanks to its high-top fit, and features IPA-approved protection. The highly practical Atop opening/closing system is lined with a zip on the side, with both fully protected. Its range of reinforcements – at the toe, the heel and around the gear shifter – are designed to avoid detracting from the boot's flexibility, making Kassius the perfect choice to accompany you on all terrains.

MS LOKI

WATERPROOF AND BREATHABLE

NEW
PRODUCT

Here is a glove to perfectly complement your new adventure outfits, both in looks and in its exceptional features. This textile glove achieves the feat of being both light and protective: designed in ripstop fabric, it is lined on both the palm and the edges, with a flexible slider providing reinforcement without stiffening the palm. Waterproof and breathable, it offers perfect grip thanks to the X Fit concept, laminated in the palm.

- Stretch under sleeves, at crotch and behind legs down to calves
- Zipped calves
- Location for knee sliders + leather covers
- Securized stitching
- Zipped anatomic cuffs with press-stud tightening
- Fitted sizing slightly preformed for a universal use

HERITAGE

DESIGNED FOR RIDERS SINCE 1996

Dandy, poet, authentic lover of motorcycles he rides without compromising ever, Lorenzo draws his inspiration from the sensations and eroticism of our two-wheeled rides and composes unbridled illustrations.

These fantastic and sulphurous posters, that Lorenzo creates under the pseudonym Aristocratic Motorcyclist, give us a glimpse of wild landscapes traced out by an idealised biker.

FIT GUIDE

Our range proposes all types of fit so that everyone can find the shape that will fit well. A bad choice of fit can result a feeling of discomfort.

	REGULAR	SLIM	SKINNY	TAPER
	Straight thighs Straight from knees to ankles Suitable for all body shapes	Adjusted thighs Tightened from knees to ankles Suitable for all body shapes	Very fitted legs from ankles to hips Tight ankles Suitable for thin body shapes	Relaxed thighs Tapered from knees to ankles Suitable for all body shapes
				
	DEFENDER FREDDIE DISCOVERY BARRY	CATHELYN		
2 LAYERS				
1 LAYER	WAYNE	CARGO FLINT MIKKI	VICKY JUDY	MIKE MARCO

COLOR GUIDE

Like denim brands, we propose **17** different colourways, spread between original and unmissable creations

						
BLACK 1001	DARK RAW 3031	DARK NAVY 3030	NAVY 3004	WASHED BLUE 3029	BLUE 3001	STONEWASH 3013
						
ANTHRACITE 4022	GREY 4001	LIGHT GREY 4040	BURGUNDY 7005	KAKI 8001	CAMEL 6017	SAND 6009
						
BROWN 4022	SKY BLUE 3032	MEDIUM BLUE 3033				

OUR OFFER IS

TECHNICAL

The full range is **CE** certified.

We have also selected the reference materials, a guarantee of quality, such as :

Fibres aramides DuPont™ Kevlar®

Lightweight fiber whose heat and cut resistance have made it well known in many fields of industry.

CORDURA® Denim

4 times more resistant than 100% cotton denim. Known for work clothing and recently used in fashion world. Strong and light. Good abrasion and tearing resistance. Stretch for fit, soft touch

COOLMAX®

Breathable technology that allows sweat and heat evacuation quick drying - anti-odor.

All our models are **adapted to 2 wheels**. A number of details are specifically designed: quick access to the knee protectors, adjustment of their positions, no buttons or metal rivets in the areas that may come into contact with the tank...

COMFORTABLE

This is fundamental for us.

All our jeans are stretch and contain between 1 and 2% elastane.

We use specific stitching at the waist to maintain the elasticity of the fabric in this key area.

The cuts are specially designed for comfort in riding position.

The belts go a little higher up the back to cover the lower back. Several of our models have preformed legs.

VERSATILE

We propose 2 constructions:

The main material meets all the certification criteria and therefore does not require internal reinforcement. The 1-layer jeans are light and breathable.

The trousers are partially or totally lined, to increase protection on the most exposed areas and allow the use of a light and very flexible outer canvas.

This offer allows you to choose your denim according to your needs: I live in a hot country, the 1 layer seems to be preferable because it is lighter and more ventilated. On the other hand, all-year riders (so all-weather) may choose Kevlar lining.

C-SIZING

Comfort-sizing (C-sizing) range is an IXON specific range dedicated to king sizes. It meets the needs of heavily built motorcyclists and propose garments to people with some stoutness (from 80kg to 130kg) yet of average size (from 1m65 to 1m90) with an adapted sizing that offers comfort and ease on the hips, belly and waist area, while keeping standard sleeve and leg length. For that purpose, waist and chest measurements increase in a much more important way than with regular sizing whereas arm and leg length are evolving quite the same. For example, the men's SICILA C jacket in size C-2XL corresponds to the SICILIA in standard size M in regard to length of arms. From C-2XL to C-8XL. Sizing = p.291.

WATERPROOFNESS :

Waterproofness defines how a textile can resist to water penetration. The measure unit is in mm or Schmerber (ISO standard). This standard considers that a fabric is waterproof from 1300 mm.

Because of pressure of speed or wind on equipment, specific levels of performances must be achieved which are different from « casual clothing ».

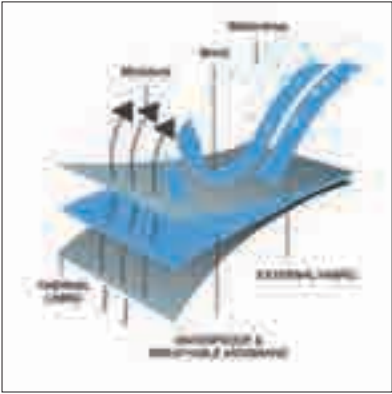

1300mm	MEDIUM RAIN	-
3000mm	2H RAINFALL	COMPACT SERIES
5000mm	3H STORM	-
10000mm	4H STORM	ROAD SERIES

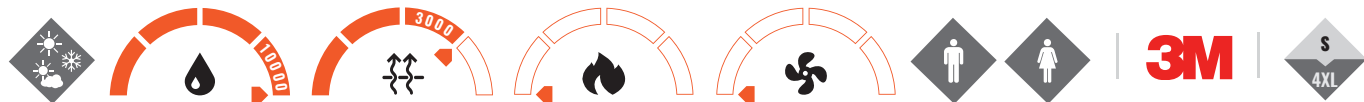

BREATHABILITY :

Position when riding is quite static with little effort, but with stress the rider may sweat. Sweat is the enemy as it can quickly affect your comfort as you feel wet inside.

The ability for a fabric to evacuate vapor is measured in gram of water per square meter of fabric per 24h.
This is called MVTR (MOISTURE VAPOR TRANSMISSION RATE).

SIZING CHART

BODY MEASUREMENT

A. CHEST MEASUREMENT

To measure the chest perimeter, place the tape measure at the largest place of the chest, with normal breathing.

B. WAIST MEASUREMENT

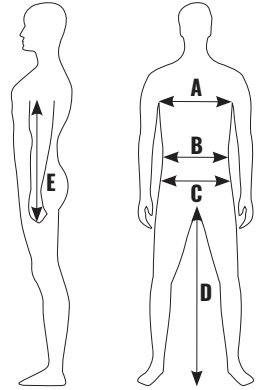

To measure the waist perimeter, place the tape measure under your last ribs on the belly area.

C. HIP MEASUREMENT

To measure hips perimeter, place the tape measure in the middle of your hips, including buttocks, on the larger area.

D. HEIGHT CROTCH/GROUND

E. BOTTOM MEASUREMENT
